## Advertorial

**ERO-Gräpelinier 7000** **ERO**

Der neue ERO-Traubenvollernter sortiert in Lagen bis 30 Prozent Steigung

Die Qualität des Lesegutes gehört zu den wichtigsten Kriterien bei der Auswahl eines Traubenvollernters. Während die Ernter in den 60er und 70er Jahren noch sparsam eingesetzt waren, erwarten die Kunden heute nicht nur eine hohe Ernte, sondern auch einen hohen Anspruch an die Qualität des Lesegutes. Der Trend begann schon in den 80er, als ERO mit der einfachen Lesegüterabgabe dem Landwirt auf ein Minimum reduzierte. Anfang der 90er hat ERO an erster Hand mit einer Erntemaschine auf dem Traubenvollernter angeboten. Schon die SFD30 konnte im Weinberg arbeiten und damit nicht nur einen Arbeitsgang einsparen, sondern auch die Qualität des Lesegutes weiter steigern. Die anderen Hersteller haben längst nachgezogen. Die ERO werden inzwischen fast 60 Prozent der Traubenvollernter mit einer Abwehrmaschine ausgestattet. Um das Lesegut weiter zu verbessern, war dem Erntegrüper heute in der Regel mit Sorteroptionen ausgestattet. Nachteil der meisten Systeme ist, dass sie nur in flachen Lagen (sogar arbeiten) können, gegen sie in Steil- und Hanglagen nicht so leicht arbeiten. Mit dem Sorteroptionen VTTselect bietet ERO dem Gräpelinier 7000 erstmals ein System, das auch in Steigungen bis 30 Prozent zuverlässig funktioniert. Außerdem wird über eine automatische Umschaltung der Drehrichtungen des Erntegrüpers. Die Umschaltung erfolgt selbst sich den Traubenvollernter mehr als zwei Sekunden in einer Steigung von über 15 Prozent betriebs. So wird gewährleistet, dass die Trauben immer richtig auf dem Sorterfach angelagert werden und sich von dort aus gleichmäßig verteilen. Die automatische Neuanpassung sorgt dafür, dass die Abwehrmaschine auch im Gelände immer in der optimalen Arbeitsposition bleibt und ein gleichzeitiges gutes Arbeitsergebnis erzielt wird. Der Fahrer hat dabei eine gute Sicht auf Abwehrmaschine und Sorterfach und kann jederzeit zwischen Sorter und Abwehrmaschine wechseln.

Das System VTTselect kombiniert Abwehrmaschine und Roboterarm.

Automatische Sorterumstellung für eine gleichmäßige Bodenverteilung auch in Steigungen.

Handgeführte Roboter- und Landmaschinenverteilung vom Fahrer aus.

Das System VTTselect kombiniert Abwehrmaschine und Roboterarm.

Automatische Sorterumstellung für eine gleichmäßige Bodenverteilung auch in Steigungen.

#### Liebe\*r Abonnent\*in,

wieder einmal beherrscht die Pandemie das Branchengeschehen, diesmal auch in eigener Sache: Situationsbedingt müssen wir vom Meininger Verlag die Eventreihe "move." leider verschieben. Aber auch die Vinitaly fällt dieses Jahr zum zweiten Mal den Restriktionen zum Opfer. Zeitgleich erlebt die italienische Weinlandschaft auch ohne Messe eine Zäsur.

Lesen Sie diese und weitere Top-News in unserem Newsletter für die Wein- und Getränkebranche.

Viel Spaß beim Lesen!

Ihr Meininger Verlag

### 1 Brief description of title

DER DEUTSCHE WEINBAU is the official publication of the German Viniculture Association and its member associations and a source of information on all wine-growing policy topics as well as being a guide to marketing and to wine-growing and winery technology. As the information leaflet of the German Working Team for Viniculture Technology (Arbeitsgemeinschaft für Technik im Weinbau, ATW), DER DEUTSCHE WEINBAU leads the way in all areas of research and development.

What is more, every second issue of DER DEUTSCHE WEINBAU includes DER OENOLOGE, the newsletter for the Federation of German Oenologists and graduates from the Geisenheim Faculty of Viniculture and Beverages Technology. So DER DEUTSCHE WEINBAU magazine is the leading information medium – for practitioners as well as all executive personnel in viniculture, oenology and beverages technology.

<b>2</b>	<b>Official organ of</b>	Official publication of the German Wine-Growers' Association and its regional member associations

Characteristics 20 (Size of business unit), 21 (Position/Function/Profession), 22 (Education/Vocational training), 23 (Age) and 24 (Size of municipality) were not investigated, as the audience value of this publication does not depend on these factors.

# 10

## Standard Terms of Acceptance for Advertisements and Inserts

1. For the purpose of the General Terms and Conditions of Business set forth below, an „Advertisement Order“ is the contract made between the publishing house and the customer relating to the publication of one or more advertisements or other advertising media (hereinafter together called „Advertisements“) by advertisers or other promoters (hereinafter together called „Advertisers“) in a magazine or newspaper with the aim of dissemination.

2. A „Closing“ is a contract for the publication of several advertisements, with due consideration of the discounts that are to be granted to the Advertiser in accordance with the price list. Each publication is performed upon call by the customer. No discounts will be granted to enterprises of which the business purposes include placing Advertisement Orders for several Advertisers to obtain a joint discount. If a right to call each advertisement is granted in a Closing, the Order must be completed within one year of publication of the first advertisement, insofar as the first advertisement is called and published within one year of the contract being made.

3. If an Order pursuant to Nos. 1 and 2 is not performed due to circumstances for which the publishing house is not responsible, the customer must reimburse to the publishing house the difference between the discount granted and the one corresponding with the actual purchase made, this being without prejudice to any other legal obligations. If nothing has been agreed to the contrary, the customer has a retrospective claim to the discount corresponding to his actual purchase of advertisements within one year.

4. For calculation of purchased quantities, text millimetre lines will be converted into advertisement millimetres in accordance with the price.

5. Orders for advertisements and external supplements which are only to be published or included in certain issues or certain editions or at certain locations in the publication must be received by the publishing house in due time for the customer to be notified before the advertising deadline if the order cannot be performed in this way. Classified advertisements will be printed under the appropriate heading without any express agreement to this effect being required.

Confirmations of placement are issued subject to reservation and placements can be changed for technical reasons. The publishing house cannot be held liable in such cases.

6. Text-section advertisements are advertisements which are adjoined on at least three sides by text and not other advertisements. If advertisements are of a design that is not identifiable as advertising, they will be clearly marked with the word „advertisement“ by the publishing house.

7. The publishing house reserves the right to reject advertisements - including separate calls as part of a Closing - and orders for supplements if the following applies:

- their content breaches the law or public-authority regulations or
- the Deutscher Werberat (German Advertising Standards Council) has objected to their content in complaint proceedings or
- the publishing house cannot reasonably be expected to publish them in view of their content, design, origin or technical form or
- they are advertisements containing advertising of or for third parties.

Orders for other advertising media will only become binding for the publishing house upon submission and approval of the sample.

Advertisements containing advertising of or for third parties (co-operative advertising) are subject in each single case to prior written acceptance by the publishing house. Such acceptance entitles the publishing house to make an extra charge for co-operative advertising.

Supplements of which the format or design gives the reader the impression of being part of the newspaper or magazine or which contain external advertisements can be rejected by the publishing house for such reasons. The customer will be notified immediately of the rejection of an advertisement or other advertising medium.

8. Solely the customer is responsible for on-time supply and flawless quality of suitable artwork or other advertising media. If artwork for advertisements is supplied in a digital form, the customer must ensure that it is as required, in particular that it complies with the publishing house's format or technical specifications and is provided in due time before the start of publication.

Before digital transmission of artwork, the customer must ensure that the transmitted data is free from computer viruses. If the publishing house discovers a computer virus in a file that has been transmitted, it will delete the file without the customer being able to base any claims on such action. The publishing house reserves the right to make damages claims against the customer if it has suffered a loss as a result of such computer viruses transmitted by the customer.

The customer shall pay the costs incurred by the publishing house for any artwork amendments requested by the customer or for which said customer is responsible. The features and quality of the advertisements or other advertising media are agreed to be those customary for the respective item pursuant to the data given in the price list and in the confirmation of order, this being as far as possible in view of the artwork provided. This only applies insofar as the customer meets the publishing house's specifications for preparation and supply of artwork.

9. Artwork will only be returned to the customer by special request. The publishing house's obligation to keep the artwork ends three months after initial publication of the advertisement.

10. If publication of the advertisement does not comply with the contractually agreed features and quality or performance, the customer shall have a claim to a reduction in payment or to a non-defective substitute advertisement or to substitute publication of the other advertising medium but only to the extent to which the purpose of the advertisement or the other advertising medium was adversely affected. The publishing house has the right to refuse a substitute advertisement or substitute publication if - this involves an amount of work which, in view of the content of the contractual obligation and the principles of good faith, is grossly out of proportion with the customer's interest in performance or - this would only be possible for the publishing house at a disproportionately high cost.

If the publishing house fails to place the substitute advertisement or publish the other advertising medium within the reasonable period that it has been allowed or if the substitute advertisement or publication is again defective, the customer has a right to a reduction in payment or rescission of the order. The order cannot be rescinded in the event of minor defects in the advertisement or publication of the other advertising medium. Any notices relating to non-apparent defects must be submitted within one year of the beginning of the statutory limitation period.

Damages claims resulting from a positive breach of obligation, culpa in contrahendo or an unlawful act are ruled out, including in the event of placement of an order by telephone; damages claims resulting from impossibility of performance and default are limited to compensation for the foreseeable loss and the amount is restricted to the remuneration payable for the relevant advertisement or supplement. This does not apply to intent and gross negligence on the part of the publishing house, its legal representatives and its vicarious agents. Liability of the publishing house for losses due to the lack of warranted features is not prejudiced. In addition, in commercial transactions, the publishing house will not be liable for gross negligence of vicarious agents either; in other cases, liability to merchants for gross negligence is limited in its scope to the foreseeable loss, this being up to the amount of the relevant advertisement payment.

The publishing house is liable in accordance with legal regulations for claims under the Product Liability Act and for injury to life, body or health. Notices of defects - except for non-apparent defects - must be submitted within four weeks of receipt of the invoice and proof. All claims made against the publishing house based on breaches of contractual obligations are subject to a time limitation of one year as of the statutory start of the period of limitation, unless they are due to action with intent.

11. Test proofs will only be supplied upon express request. The customer is responsible for the correctness of the returned test proofs. The publishing house will make all the corrections of which it is notified by the advertising deadline or within the period allowed when the test proofs were sent.

12. If no special size rulings apply, invoice calculation will be based on the actual printing height as customary for the type of advertisement.

13. The invoice must be paid within the period stated in the price list, unless a different payment period or an advance payment has been agreed in writing in individual cases. Possible discounts for early payment will be granted as per the price list.

Any discount credits and subsequent discount debits will not be made until the end of the advertising year in all cases.

14. In the event of payment default or deferral, customary bank interest rates and the costs of collection will be charged. In the event of payment default, the publishing house can postpone continued performance of the ongoing order until payment has been made and can require advance payment of the remaining advertisements.

If there is justified reason to doubt the customer's solvency, the publishing house has the right, even during the term of a Closing, to make the publication of further advertisements dependent on advance payment of the sum by the advertising deadline and on settlement of outstanding invoiced amounts, irrespective of the payment date originally agreed.

15. The publishing house will supply an advertisement proof on request. Depending on the type and scope of the Advertisement Order, advertisement extracts, tear sheets or complete sample copies will be supplied. If a proof is no longer available, it will be replaced by legally binding confirmation by the publishing house that the advertisement was published and disseminated.

16. Pursuant to Sentence 2, a reduction in the print run in the event of a Closing covering several advertisements can justify a claim for price reduction if the overall average of the advertising year, beginning with the first advertisement, falls short of the guaranteed print run. A reduction in the print run only constitutes a defect justifying a price reduction if and to the extent that

- it amounts to at least 20 % for a guaranteed print run of up to 50,000 copies,
- it amounts to at least 15 % for a guaranteed print run of over 50,000 copies.

A reduction in the print run for the reasons given in Number 23 will not taken into account. The guaranteed print run is the average print run specified in the price list or in some other way or, if no print run has been specified, the average print run sold in the previous calendar year (for specialist magazines, the average print run actually circulated, if applicable).

Any additional claims for price reductions relating to Closings are ruled out if the publishing house notified the customer of the drop in the print run in due time for said customer to be able to rescind the contract before the advertisement was published.

17. For box number advertisements, the publishing house will apply the due care expected of a business professional to keeping and forwarding offers on time. Registered and express letters sent in reply to box number advertisements will only be forwarded by standard post. Incoming post for box number advertisements will be kept for four weeks. Any letters not collected during this time will be destroyed. The publishing house will return valuable documents but has no obligation to do so.

In an individual agreement, the publishing house can be granted the right, as the customer's representative, to open the incoming offers instead and in the declared interest of the customer. No letters in excess of the acceptable DIN A4 format or products or book and catalogue consignments or packages will be forwarded or accepted. However, acceptance and forwarding can be agreed in exceptional cases if the customer pays the charges/costs thus incurred.

18. The law of the Federal Republic of Germany applies to the Advertisement Order.

The place of performance is the seat of business of the publishing house. In business transactions with merchants, legal bodies and special assets under public law, the legal venue for filing legal action is the seat of business of the publishing house. If publishing house claims are not asserted in dunning proceedings, the legal venue for non-merchants shall be determined by their place of residence.

If the residence or customary whereabouts of the customer, including non-merchants, is not known when the legal action is filed or if the customer has moved his residence or customary whereabouts outside the jurisdiction of the law since the contract was made, the publishing house's seat of business is agreed to be the legal venue.

19. Advertising agents and agencies have an obligation to comply with the publishing house's price list in their offers, contracts and invoices for Advertisers.

20. Price changes for Advertisement Orders already placed are effective for entrepreneurs if they are announced by the publishing house at least one month before publication of the advertisement or other advertising medium. The customer holds a right of rescission if prices are increased. The right of rescission must be exercised in writing within 14 days of receipt of notification of the price increase.

21. If a joint discount is claimed for affiliated enterprises, written evidence of the group status of the Advertiser will be required. Affiliated enterprises for the purpose of this provision are enterprises between which there is a capital participation of at least 50 per cent.

For incorporated companies, group status is to be shown by confirmation by an auditor or submission of the latest business report; for business partnerships, such status is to be shown by submission of an excerpt from the Trade Register. Such evidence must be furnished by no later than the end of the advertising year. Evidence submitted at a later date cannot be recognised in retrospect. Group discounts are always subject to the express written confirmation of the publishing house.

Group discounts are only granted for the duration of membership of the group. Termination of group membership must be reported immediately; group discounting ends with termination of group membership.

22. The customer warrants that he possesses all the necessary rights for placement of the advertisement. The customer is solely responsible for the content and for the legal acceptability of both the written and pictorial material provided for advertising and the supplied advertising media. Within the scope of the Advertisement Order, said customer will hold the publishing house harmless in respect of all claims of third parties which may arise for reason of a breach of legal regulations, in particular a breach of competitive and copyright law. In addition, the publishing house will be held harmless in respect of the costs of necessary legal defence. The customer has an obligation to support the publishing house in good faith with its legal defence against third parties, by providing information and documents.

The customer undertakes to pay the costs of publication of any necessary counterstatement at the advertising rate applicable at the time.

The customer assigns to the publishing house all the utilisation, property protection and other rights under copyright law required for use of advertising in print and online media of all kinds, including the internet, such rights being in particular the right of reproduction, dissemination, assignment, broad-casting, making publicly available, removal from a database and call. Said assignment is made to the extent necessary for performance of the order in terms of both time and content. The above rights are assigned without any geographical restriction in all cases.

23. In the event of operational disruptions or in cases of force majeure, illegal labour disputes, unlawful seizure, traffic disruptions, a general shortage of raw materials or energy and similar - both in the publishing house's operations and in external operations which the publishing house uses to meet its obligations -, the publishing house has a claim to full payment of the published advertisements, provided that the published product was supplied by the publishing house with 80 % of the print run sold on average in the last four quarters or warranted in some other way. If smaller quantities were supplied by the publishing house, the invoice amount will be reduced in the same ratio as that of the guaranteed sold or warranted print run to the print run actually supplied.

24. In compliance with Section 33 of the Bundesdatenschutzgesetz (BDSG; Federal Data Protection Act), we advise that the necessary customer and delivery data is stored with the help of electronic data processing for the purposes of the business relationship.
